85B, Platinum Enclave, Sector 18, Rohini, Delhi – 110089

SUMMARY

Information Security undergraduate with hands-on experience in Cloud Security, SIEM monitoring, threat detection, and full-stack development. Skilled in Microsoft Sentinel, ArcSight, Azure, AWS, and security operations, with experience building AI-powered and cybersecurity-focused solutions.

EDUCATION

Vellore Institute of Technology, Vellore
B.Tech in Computer Science (Information Security)

2023 – 2027

EXPERIENCE

Cloud & Security Engineer

Jun 2026 – Jul 2026

NTT DATA, Inc.

- Monitored and analyzed security and infrastructure alerts in a 24x7 operations environment, performing alert triage, log analysis, event correlation, and initial incident investigation.
- Supported enterprise network and security operations by monitoring infrastructure health, validating configurations, and assisting with troubleshooting of network connectivity issues.
- Assisted with cloud and network infrastructure operations, including connectivity validation, security policy review, routing, VLANs, VPNs, and access controls.
- Worked with enterprise networking and security technologies including SIEM platforms, firewalls, SD-WAN, AAA, VPNs, SSL/TLS, and network monitoring tools while following organizational security and operational procedures.

Full Stack Developer Intern

Jun 2025 – Jul 2025

One Six On

- Developed React and Node.js features for a production web application.
- Built reusable UI components and integrated REST APIs.
- Enhanced application performance and user experience through code optimization.

Cyber Security Trainee

May 2025 – Jul 2025

AdroIT Technologies Innovative Solutions Pvt. Ltd. (IBM Partner)

- Completed IBM Cyber Security training covering network security, threat analysis, and risk assessment.
- Performed hands-on labs in vulnerability assessment and security best practices.

TECHNICAL SKILLS

Programming: C, C++, Python, Java, JavaScript, SQL

Web Development: React.js, Node.js, Express.js, HTML, CSS, Tailwind CSS, Bootstrap, REST APIs, JWT Authentication

Cybersecurity: SIEM, SOC Operations, Threat Detection, Incident Response, Vulnerability Assessment, Threat Intelligence, IAM, Security Monitoring, Log Analysis

Security Tools: Microsoft Sentinel, ArcSight, Splunk, Wireshark, Nmap, Burp Suite, OWASP ZAP, Nessus, Metasploit, John the Ripper

Cloud Platforms: Microsoft Azure (Azure Monitor, Defender for Cloud, Log Analytics, Azure VM, Storage, Networking, RBAC, DDoS Protection), AWS (EC2, S3, IAM, CloudWatch, VPC)

DevOps & Systems: Docker, Git, GitHub Actions, CI/CD, Linux, Bash Scripting

Networking: TCP/IP, DNS, DHCP, HTTP/HTTPS, VPN, Firewalls, Routing & Switching

PROJECTS

COREP LLM Assistant

- Developed a RAG-based LLM system for querying regulatory PDFs using FAISS and HuggingFace embeddings.
- Built end-to-end pipeline for document ingestion, vector indexing, and context-aware answer generation (FLAN-T5).
- Enabled structured JSON-style outputs for regulatory reporting workflows (COREP/PRA prototype).
- Deployed interactive interface using Gradio for real-time querying with source traceability.

Antivirus / Malware Finder

- Developed a malware detection utility using signature-based analysis techniques.
- Integrated VirusTotal API alongside locally stored malware hash databases for cross-verification.
- Implemented hashing-based comparisons to classify suspicious files and reduce false positives.

Secure Assignment Submission and Review Platform

- Architected a secure cloud-based file storage and sharing platform using React, Node.js, and Express.
- Integrated AWS S3 for scalable object storage with controlled access permissions.
- Implemented PIN-protected access and backend validation using Multer middleware.

CERTIFICATIONS

Microsoft Certified: Cloud and AI Security Engineer Associate (SC-500) — Zero Trust, Microsoft Entra ID, Identity and Access Management, Threat Protection, Security Operations, Data Security, Governance, Compliance, and Cloud Security (Microsoft, 2026)

Microsoft Certified: Azure Fundamentals (AZ-900) — Validated knowledge of Cloud Computing, Azure Services, Identity and Access Management, Security, Governance, Compliance, and Azure Pricing Models (Microsoft, 2026).

Cybersecurity Essentials and Careers — Security Principles, Cyber Defense, Industry Practices (IBM, 2026)

IBM Cyber Security Analyst — Security Operations, Incident Response, Threat Analysis (IBM, 2025)

MySQL Bootcamp — Database Design, Query Optimization, Relational Databases (Udemy, 2025)

IBM-Cyber Security — Cybersecurity Fundamentals, Network Security, Threats and Vulnerabilities, Security Practices, and Cyber Defense (AdroIT Technologies, 2025)

IBM Cyber Security — Network Security, Vulnerability Assessment, Risk Management (IBM Partner Program, 2025)

Full-Stack Web Development Bootcamp — React, Node.js, Express, REST APIs, SQL (Udemy, 2024)

ACHIEVEMENTS & LEADERSHIP

Top 15 (Solo), Capture The Flag (CTF) — **Techkriti 2025, IIT Kanpur.**

Coordinator, RoboWars 2025 — Successfully led the execution of VIT's flagship robotics competition, managing event operations and participant coordination.

Coordinator, Vortex 2024 — Led the execution and coordination of VIT's flagship mechatron competition.

Core Member, RoboVITics — Conducted hands-on robotics workshops, mentored participants, and contributed to technical outreach initiatives.

Cybersecurity Content Contributor — Co-authored cybersecurity blogs focused on threat awareness, security best practices, and emerging attack techniques.

Semi-finalist, AtomQuest 2024 — Developed an IoT-based smart appliance control system integrating embedded hardware, cloud connectivity, and automation technologies.
